Washington, Monday, February 27, Nearly all the Democratic Senators were resent at the caucus Saturday. Among the few absentees was Bigler, who had important business North, and left Washington in the morning train. The Committee reported, through Green, Davis' resolutions, with verbal modifications. They assert confidence in the

Judiciary to protect the rights of slavehold-ers in the Territories, but assert the right and duty of Congress to intervene should legislation be necessary. In other words, if the peo-ple of the Territories want slavery, Congress is not to interfere with them. If they do not want it, Congress is to put it on them. This is the marrow of the Bright, Fitch, Gwin, Green, Bigler, and Chesnnt resolutions. Mr. Clingman opened the debate in a manly

Brinly's Answer to Peeler's Circular.

desers. Harney, Hoomes & Co. Gentlemen: There has been a great deal aid in the last few days by Mr. l'eeler and others, in regard to the plowing we had the ther day. I had intended not to notice it for this reason-1 was satisfied he wished to get up a controversy, thinking it would bring his low into notice. I shall not say much about is plow, but will give the opinion of Dr. Cloud who is one of the best practical planters in the South, and is editor of the Cotton l'lanter sublished at Montgomery, Alabama. He was alle I on by a planter of South Carolina to give is opinion in regard to the l'eeler l'low, and nswered as follows: "I have seen the l'eeler low-have seen it perform drawn by a camel. I is a novelly, but possesses uo merit on the core of principle. The only peculiarity abou it is its arrangement for receiving and working a variety of shares or hoes, which pecuharity is possessed by a half dozen patents that we have seen and tried before." As regards the l'eeler l'low, I have not a word say-let the planters judge for themselves but I do intend to contradict the statementade by him in his notice and in the circula me one to-day. He claims a victory over plows, and says the crowd well knew it. T I deny: for his agent tried to gat the opin beat the plow that took the premium over my plow last fall at the fair. That is not so; for I had no plow at that fair. Mr. Wm. Young entered a plow of my make, and received the first premium on it. Mr. Foster entered the Brinly plow, on which he received a premium.

Ar. Lilly entered a plow in every class, he naving no competitor in the class for sandy land, and he also received a premium. These are the circulars that he is sending out to my prejudice all over the South. If I could not introduce my plow without taking such a course as this, I would try some other way to If he has anything more to say I hope he will come to me or say it through the public

Guthrie & Bros. have the choicest stock of dress goods in the market. Fourth street.

P. W. RAMSET, on Third street, is one of the heat watch-makers in our city. If you have a fine watch or clock out of order, take it to him for repairs. Ils has a great variety of watches, jewelry, clocks, silverware and fine spectacles, which he is selling very cheap.

At a time when there is great fear that the stock of dry lumber, sash, doors, blinds, &c., will fall short, owing to the vast amount of improvements in Louisville, it will be interesting to the public to know that Alexander, Ellis & Co., have enlarged their factory and have now on hand several million of dry lumber. Call at their office on Main street, nearly opposite the Galt House, or at their factory on Fulion, above Presion street.

J. N. Collins sells the best of coal at hi office, Third street, between Market and Jeffer son. Give him your orders.

ELEGANT STOCK OF MEN'S AND BOYS' CLOTH 130 .- J. M. Armstrong, on Main, opposite the National Hotel, having returned from the East, is prepared to exhibit a most beautifu assortment of Men's and Boys' Clothing, made up in elegant style, fashionably ent, and of the most substantial material. He would call spe cial attention to his stock of Youths' and Children's Clothing, all sizes, from Iwo year up. His assortment of Cloths, Cassimeres and Vestings is also very full and desirable. All of his stock will bear the closest inspection, to which we ask the attention of the public.

TRUNES .- Among the places worthy of the attention of the visitors to Louisville at the present time, is the great trunk manufactory and emporium of J. 11. McCleary, on the northeast corner of Fourth and Main streets His large manufactory enables him to supply trunks, valises, bonnet and hal boxes, carpel bags, bureau trunks, etc., of the very best quality, at unprecedented low prices. All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Interests.

The people are aware that D. O'Hare, No 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and simi lar articles in the city. They should avai themselves of the rars opportunities afforded by Mr. O'llare. To country and city mer chants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to travel, whether with a small carpet-bag or a mammoth trunk, need go no further than to the Great Western Trunk Factory of Mr. O'llare His manufactory is a credit to Louisville, and

should meet with extensive patronage. llun dreds of workmen are employed, and thousandof dollars weekly disbursed. As a matter o chasers will consult their best interests in pur chasing of Mr. O'llare.

UNREALTHY BREAD .- In no article of food should more cautioneness be exercised than the "staff of life"-bread. In order to have it healthy and nutritions, good flour and pure yeast are necessary. Hurley's Quick Yeast is the best article in use, and in using it there i no fear of swallowing a dyspepsy with you breakfast.

Good .- A lunalic once informed a physician who was classifying cases of insanily, that he lost his wits by watching a politician, whose course was so crooked that it turned his brain If, on the contrary, he had been watching the effects of Heimstreel's Hair Restorative, he would have saved his wits and learned a curitisement. fel8d&w3m.

LOOK AT THE AUTHORITY.

DR ROBACK-Dear Ser: It is due to you and the public, more especially the afflicted, to say that I have given your invaluable Scandi navian Blood Purifier a fair trial in a number of cases of diseases arising from unhealthy blood, in all of which it has exceeded my expectations, and comes fully up to its recommendations. I do, therefore, with pleasure, recommend it to all the afflicted whose disease indioates a remedy of that description.

Yours, truly,

REV JAMES HAVENS.
